## Farm building

Create sketch of the farm building.  
Mark the following on the sketch:

- 1 Fuse box
- 2 Main intake fuses
- 3 Stopcock
- 4 Firefighting equipment
- 5 Control panel fire alarm
- 6 First aid kit
- 7 Personal protective equipment
- 8 Gas/Propane
- 9 Pesticides
- 10 Oil barrels
- 11 Commercial fertilizer stock
- 12 Emergency exit
- 13
- 14
- 15

## Important phone numbers

Fire:	110	Emergency slaughter:	
Police:	112	Milk Tank Service:	
Ambulance:	113	Temporary employment agency:	
Poison Information Centre:	22 59 13 00	Electrician:	
The Food Safety Authority:	22 40 00 00	Plumber:	
The Labour Inspection Authority:	73 19 97 00	Contact on farm:	

## Key measures

Fire:	Contact the fire department immediately. Keep windows and doors closed. Consider whether it is safe to go in and extinguish. Call a slaughterhouse and neighbors to evacuate animals..
Power outage:	Check RCD. Always keep spare fuses in stock. Describe the opportunity for emergency ventilation.
Manure gas:	Be aware at stirring or emptying of manure storage. Do not enter livestock housing suspected manure gas.
Silo gas:	Always use silo fan before going into the silo. The danger of gas is present long after the grass is stable.
